May 2017

SM High School, Malgaon.
SSC (73.8%)
May 2015

PROJECTS

Pet Well Services / *React, Spring Boot, MySQL*   Dec 2024
- Pet Well Services is a platform for managing veterinary care, grooming, pet sitting, and pet food shops. It provides appointment scheduling, pet health tracking, and role-based access for users.
- Pet Owners can book appointments and manage pet profiles. Veterinarians can schedule consultations and update medical. Groomers and Pet Sitters can manage bookings and availability. The admin dashboard allows user management, verification, and reporting. It ensures secure authentication and seamless pet care services.

Ayurvedic Clinic Management System / *React, Spring Boot, MySQL*   Oct 2024
- Healthcare platform designed to streamline clinic operations, patient management, and appointment scheduling.
- Designed role-based access for doctors, assistant doctors, receptionists, and admin. Implemented features like employee registration, appointment management, patient record tracking, and report generation.
- Ensured secure authentication, efficient data storage, and seamless user interaction, enhancing clinic efficiency and patient care.

TECHNICAL SKILLS

Technologies: C, C++, Java, HTML, CSS, MySQL, JavaScript, React, Spring Boot, ASP .NET

Core Concepts: Data Structure, Object Oriented programming

Tools and platform: VS code, Eclipse, Visual Studio Community 2022

Certification

Pre-Cat Course from Sunbeam Pune.

Extra-curricular Activities

- Blood donations in social initiatives contributing to life-saving causes.

Declaration

I hereby declare that the above-mentioned information is genuine and true to the best of my knowledge.
